**Marilyn Waring** Jun 14 2021 In 1975, Marilyn Waring was elected to the New Zealand Parliament as the MP for Raglan. Aged just twenty-three, she was one of only a few female MPs who served through the turbulent years of Muldoon's government. For nine years, Waring was at the centre of major political decisions, until her parliamentary career culminated during the

debate over nuclear arms. When Waring informed Muldoon that she intended to cross the floor and vote for the opposition bill which would make New Zealand nuclear free, he called a snap election. And the government fell. . . This is an autobiographical account of Waring's extraordinary years in parliament. She tells the story of her journey from being elected as a new National Party MP in a conservative rural seat to being publicly decried by the Prime Minister for her 'feminist anti-nuclear stance' that threatened to bring down his government. Her tale of life in a male-dominated and relentlessly demanding political world is both uniquely of its time and still of pressing relevance today.

*Chronic Rhinosinusitis* Mar 31 2020 This issue will focus on treatments for Chronic Rhinosinusitis. Dr. Wyste Fokkens guest edits topics such as: "Inflammatory mechanisms in chronic rhinosinusitis with or without nasal polyposis," "European versus Asian Chronic rhinosinusitis. What did it teach us and what do we want to know," "Epithelium, cilia and mucus, their importance in chronic rhinosinusitis Noam Cohen Noam," "Aspirin intolerance: does desensitization alter the course of the disease," "Anti-inflammatory effects of macrolides: applications in CRS," and more!

**The River of Lost Footsteps** Sep 05 2020 For nearly two decades Western governments and a growing activist community have been frustrated in their attempts to bring about a freer and more democratic Burma—through sanctions and tourist boycotts—only to see an apparent slide toward even harsher dictatorship. But what do we really know about Burma and its history? And what can Burma's past tell us about the present and even its future? In *The River of Lost Footsteps*, Thant Myint-U tells the story of modern Burma, in part through a telling of his own family's history, in an interwoven narrative that is by turns lyrical, dramatic, and appalling. His maternal grandfather, U Thant, rose from being the schoolmaster of a small town in the Irrawaddy Delta to become the UN secretary-general in the 1960s. And on his father's side, the author is descended from a long line of courtiers who served at Burma's Court of Ava for nearly two centuries. Through their stories and others, he portrays Burma's rise and decline in the modern world, from the time of Portuguese pirates and renegade Mughal princes through the decades of British colonialism, the devastation of World War II, and a sixty-year civil war that continues today and is the longest-running war anywhere in the world. *The River of Lost Footsteps* is a work both personal and global, a distinctive contribution that makes Burma accessible and enthralling.

**Ecological Stoichiometry** Mar 12 2021 All life is chemical. That fact underpins the developing field of ecological stoichiometry, the study of the balance of chemical elements in ecological interactions. This long-awaited book brings this field into its own as a unifying force in ecology and evolution. Synthesizing a wide range of knowledge, Robert Sterner and Jim Elser show how an understanding of the biochemical deployment of elements in organisms from microbes to metazoa provides the key to making sense of both aquatic and terrestrial ecosystems. After summarizing the chemistry of elements and their relative abundance in Earth's environment, the authors proceed along a line of increasing complexity and scale from molecules to cells, individuals, populations, communities, and ecosystems. The book examines fundamental chemical constraints on ecological phenomena such as competition, herbivory, symbiosis, energy flow in food webs, and organic matter sequestration. In accessible prose and with clear mathematical models, the authors show how ecological stoichiometry can illuminate diverse

fields of study, from metabolism to global change. Set to be a classic in the field, *Ecological Stoichiometry* is an indispensable resource for researchers, instructors, and students of ecology, evolution, physiology, and biogeochemistry. From the foreword by Peter Vitousek: "[T]his book represents a significant milestone in the history of ecology. . . . Love it or argue with it--and I do both--most ecologists will be influenced by the framework developed in this book. . . . There are points to question here, and many more to test. . . . And if we are both lucky and good, this questioning and testing will advance our field beyond the level achieved in this book. I can't wait to get on with it."

**Scientific Style and Format** Nov 07 2020 The Scientific Style and Format Eighth Edition Subcommittee worked to ensure the continued integrity of the CSE style and to provide a progressively up-to-date resource for our valued users, which will be adjusted as needed on the website. This new edition will prove to be an authoritative tool used to help keep the language and writings of the scientific community alive and thriving, whether the research is printed on paper or published online.

**The Opioid Epidemic** Dec 09 2020 The opioid epidemic is responsible for longest sustained decline in U.S. life expectancy since the time of World War I and the Great Influenza. In 2017, nearly 50,000 Americans died from an opioid overdose - with an estimated 2 million more living with opioid addiction every day. *The Opioid Epidemic: What Everyone Needs to Know®* is an accessible, nonpartisan overview of the causes, politics, and treatments tied to the most devastating health crisis of our time. Its comprehensive approach and Q&A format offer readers a practical path to understanding the epidemic from all sides: the basic science of opioids; the nature of addiction; the underlying reasons for the opioid epidemic; effective approaches to helping individuals, families, communities, and national policy; and common myths related to opioid addiction. Written by two expert physicians and enriched with stories from their experiences in the crosshairs of this epidemic, this book is a critical resource for any general reader -- and for the individuals and families fighting this fight in their own lives.

*Nietzsche and the Burbs* Dec 29 2019 In a work of blistering dark hilarity, a young Nietzsche experiences life in a metal band & the tribulations of finals season in a modern secondary school. When a new student transfers in from a posh private school, he falls in with a group of like-minded suburban stoners, artists, and outcasts—too smart and creative for their own good. His classmates nickname their new friend Nietzsche (for his braininess and bleak outlook on life), and decide he must be the front man of their metal band, now christened Nietzsche and the Burbs. With the abyss of graduation—not to mention their first gig—looming ahead, the group ramps up their experiments with sex, drugs, and...nihilist philosophy. Are they as doomed as their intellectual heroes? And why does the end of youth feel like such a universal tragedy? And as they ponder life's biggies, this sly, elegant, and often laugh-out-loud funny story of would-be rebels becomes something special: an absorbing and stirring reminder of a particular, exciting yet bittersweet moment in life...and a reminder that all adolescents are philosophers, and all philosophers are adolescents at heart.

*The Winner's Way* Jun 02 2020 Create personal best performance at will—and revel in the achievement! If you have ever watched athletes performing at their best, you have witnessed the power of “the Zone”—that state where everything clicks and personal and team bests are the norm. In *The Winner's Way*, Dr. Pam Brill tells readers how they, too, can achieve the Zone of top performance, turning goals – whether in the wide world of sports, work or daily life—into positive, results-driving action. With her 3 A's – activation, attention and attitude—Dr. Brill supercedes previous wisdom by systematically bringing together these three crucial elements to hurdle personal obstacles and finish—again and again—always the winner. Out of her years of research on peak performance in sport and work, coaching to elite athletes and top corporations,

and teaching at Dartmouth Medical School, Brill, a psychologist, has put together, and field tested, her unique Winner's Way™ system. The Winner's Way offers readers a proven, user-friendly method to identify, engage, and drive strategic change for continual achievement in the face of never-ending challenge. That racing heart and those white knuckles? They're the result of the chemical deluge that ramps activation to high speed—but without proper 3A alignment, this power within can derail attention and attitude. Tunnel vision is no accident. Negative beliefs about self and potential will always get in the way. Plagued instead by listlessness, wandering attention, an apathetic attitude? These are all due to another chemical reaction—with symptoms readers learn to identify and then re-ramp to their best strengths. Throughout *The Winner's Way*, Dr. Brill provides example after example so readers can adapt, according to their personal make-up, the steps to winning achievement that become second nature. On command, our readers will learn to: Change a poor attitude Pull out of a downspin Use language as an arsenal, fortress, and medic "Debrief" from experiences by identifying what was done well—and what should be done differently next time Examine and challenge habitual assumptions . . . plus deploy strategies for dealing with performance anxiety, fear of rejection, technology overload, and more to help recapture their love for the game of life. *The Winner's Way* is straight forward, makes sense—and it works! Let the game of life begin! On your marks, get set, go!

**The Action Learning Handbook** May 26 2022 Action learning is a continued process of learning and reflection with the support of a group of colleagues, working on real issues. The action learning method is increasingly used to bring innovation to many different fields of work. The principles of action learning can achieve improvement and transformation in a wide range of applications and disciplines, including professional training and educational contexts. This book is a comprehensive guide to action learning which maintains an accessible, practical focus throughout. It is packed with useful resources, including case studies and ideas for workshop sessions. Key topics covered include: \* action learning in professional and educational settings \* setting up, facilitating and evaluating an action learning programme \* the roles and skills required to practice successfully \* use of action learning in relation to the individual, the group and the organization \* the role of reflection; and action learning theory. Newcomers to the area of action learning will find this an essential introduction which can be put to use straight away, while more experienced practitioners seeking a deeper understanding will value the thorough analysis of action learning theory.

**Responsible Leadership in Projects** Jan 22 2022 Until now, there has only been a shallow understanding of how the leadership actions of project managers interact with ethics and social responsibility. Empirical research into this subject has been sparse. *Responsible Leadership*, by Nicholas Clarke, Alessia D'Amato, Malcolm Higgs, and Ramesh Vahidi is the first study to investigate how the relationships among managers, team members, and other stakeholders can bring about personal and ethical conflicts that impact decision making. In this groundbreaking book, the authors explore how those who serve as leaders on projects can exercise their roles in ways that respond to the ever-increasing need for ethical decision making. They examine the factors that enable and constrain responsible leadership, looking at the issues faced by project managers as they interact with team members and other stakeholders. *Responsible Leadership*

also provides new insights into how project managers view the moral implications of conflicts that occur as they conduct their work and is a valuable addition to the project management toolkit.

**Religions, Culture and Healthcare** Feb 20 2022 Health professionals provide care to patients of differing religions and cultures, and knowledge of their cultural and religious background, way of life and beliefs and practices is vital to delivering sensitive and responsive care. **A Manual for Writers of Research Papers, Theses, and Dissertations, Eighth Edition** Jul 16 2021 A little more than seventy-five years ago, Kate L. Turabian drafted a set of guidelines to help students understand how to write, cite, and formally submit research writing. Seven editions and more than nine million copies later, the name Turabian has become synonymous with best practices in research writing and style. Her Manual for Writers continues to be the gold standard for generations of college and graduate students in virtually all academic disciplines. Now in its eighth edition, *A Manual for Writers of Research Papers, Theses, and Dissertations* has been fully revised to meet the needs of today's writers and researchers. The Manual retains its familiar three-part structure, beginning with an overview of the steps in the research and writing process, including formulating questions, reading critically, building arguments, and revising drafts. Part II provides an overview of citation practices with detailed information on the two main scholarly citation styles (notes-bibliography and author-date), an array of source types with contemporary examples, and detailed guidance on citing online resources. The final section treats all matters of editorial style, with advice on punctuation, capitalization, spelling, abbreviations, table formatting, and the use of quotations. Style and citation recommendations have been revised throughout to reflect the sixteenth edition of *The Chicago Manual of Style*. With an appendix on paper format and submission that has been vetted by dissertation officials from across the country and a bibliography with the most up-to-date listing of critical resources available, *A Manual for Writers* remains the essential resource for students and their teachers.

*Oxford Textbook of Transplant Anaesthesia and Critical Care* Feb 29 2020 Saving lives through organ transplantation has become increasingly possible thanks to advances in research and care. Today, the complex field of transplantation continues to develop rapidly, fuelled by demographic change and further evolutions in scientific understanding. The Oxford Textbook of Transplant Anaesthesia and Critical Care has been written and edited by pioneers in the field of organ

transplantation with an international team of authors, in order to equip anaesthetists and intensivists with the knowledge and training necessary to provide high quality and evidence-based care. The text addresses fundamental aspects of scientific knowledge, care of the donor patient, transplant ethics and special considerations. Dedicated sections address each of the major organs; kidney, pancreas, liver, heart and lung, intestinal and multivisceral. Within each organ-based section, expert authors explore underlying disease, planning for transplantation, specialized procedures, perioperative and critical care management as well as post-transplant considerations. Focus points for future developments in transplant immunology are also set out, inspiring current practitioners to engage with current clinical research and help participate in the further advancement of the science of transplantation. The print edition of the Oxford Textbook of Transplant Anaesthesia and Critical Care comes with a year's access to the online version on Oxford Medicine Online. By activating your unique access code, you can read and annotate the full text online, follow links from the references to primary research materials, and view, enlarge and download all the figures and tables.

**Frankie Welch's Americana** Jan 28 2020 "Ashley Callahan's richly illustrated book, Frankie Welch's Americana: Fashion, Scarves, and Politics, with a foreword by LaDonna Harris, illuminates Frankie Welch's remarkable career by discussing her designs as they relate to the tradition of political swag, reflect women's changing roles in politics and business, and embody fashion styles of the 1960s, 70s, and 80s. Welch began fashion consulting (advising individuals what clothing to wear and buy) in the early 1950s and established her dress shop, Frankie Welch of Virginia, in Alexandria in 1963. She deftly navigated the complex social and political connections in the Washington, D.C. area, and her shop became a leading fashion destination for the political set. She created thousands of signature scarves for political campaigns, both major political parties, clubs, schools and alumni groups, corporations, and foundations as diverse as McDonald's, the Smithsonian Institution, United Way, the Algonquin Hotel, the United States Air Force, TimeLife Books, the Folger Shakespeare Library, McCormick Spice, the New York Jets, the National Press Club, the National Trucking Association, and the University of Georgia. She provided scarves for Betty Ford, Jimmy Carter, and the Reagan/Bush inauguration. Frankie Welch's Americana also identifies significant designs and discusses their creation, use, and influence in detail. It also highlights how Welch embraced and promoted her role as an entrepreneur, building a niche business that capitalized on her location near Washington and political connections, as well as her fashion expertise. Each scarf design offers an opportunity for a general audience to view the nation's recent past through the informative lens of women's fashion, and the story of Welch's success presents an appealing, accessible narrative"--

Swing Time Oct 26 2019 “Smith’s thrilling cultural insights never overshadow the wholeness of her characters, who are so keenly observed that one feels witness to their lives.” —O, The Oprah Magazine “A sweeping meditation on art, race, and identity that may be [Smith’s] most ambitious work yet.” —Esquire A New York Times bestseller • Finalist for the National Book Critics Circle Award for Fiction • Longlisted for the Man Booker Prize An ambitious, exuberant new novel moving from North West London to West Africa, from the multi-award-winning author of *White Teeth* and *On Beauty*. Two brown girls dream of being dancers—but only one, Tracey, has talent. The other has ideas: about rhythm and time, about black bodies and black music, what constitutes a tribe, or makes a person truly free. It’s a close but complicated childhood friendship that ends abruptly in their early twenties, never to be revisited, but never quite forgotten, either. Tracey makes it to the chorus line but struggles with adult life, while her friend leaves the old neighborhood behind, traveling the world as an assistant to a famous singer, Aimee, observing close up how the one percent live. But when Aimee develops grand philanthropic ambitions, the story moves from London to West Africa, where diaspora tourists travel back in time to find their roots, young men risk their lives to escape into a different future, the women dance just like Tracey—the same twists, the same shakes—and the origins of a profound inequality are not a matter of distant history, but a present dance to the music of time. *Generation Rent* Aug 24 2019 The decline of home ownership has struck at the heart of the Kiwi dream – so perhaps it is time to fashion a new one. House prices may boom or bust but the long-term trend is clear: for more New Zealanders than ever, home ownership is out of reach. Incomes simply have not kept pace with skyrocketing property prices. *Generation Rent* calls into question priorities at the heart of New Zealand’s identity. In this BWB Text, Shamubeel and Selena Eaqub investigate how we ended up here, and what can be done to ensure all New Zealanders – home owners and renters alike – live in affordable and secure housing.

Bibliometrics and Citation Analysis Jun 22 2019 Can the methods of science be directed toward science itself? How did it happen that scientists, scientific documents, and their bibliographic links came to be regarded as mathematical variables in abstract models of scientific communication? What is the role of quantitative analyses of scientific and technical documentation in current science policy and management? *Bibliometrics and Citation Analysis: From the Science Citation Index to Cybermetrics* answers these questions through a comprehensive overview of theories, techniques, concepts, and applications in the

interdisciplinary and steadily growing field of bibliometrics. Since citation indexes came into the limelight during the mid-1960s, citation networks have become increasingly important for many different research fields. The book begins by investigating the empirical, philosophical, and mathematical foundations of bibliometrics, including its beginnings with the Science Citation Index, the theoretical framework behind it, and its mathematical underpinnings. It then examines the application of bibliometrics and citation analysis in the sciences and science studies, especially the sociology of science and science policy. Finally it provides a view of the future of bibliometrics, exploring in detail the ongoing extension of bibliometric methods to the structure and dynamics of the World Wide Web. This book gives newcomers to the field of bibliometrics an accessible entry point to an entire research tradition otherwise scattered through a vast amount of journal literature. At the same time, it brings to the forefront the cross-disciplinary linkages between the various fields (sociology, philosophy, mathematics, politics) that intersect at the crossroads of citation analysis. Because of its discursive and interdisciplinary approach, the book is useful to those in every area of scholarship involved in the quantitative analysis of information exchanges, but also to science historians and general readers who simply wish to familiarize them
